

Temporary Portable Power Center

The Portable Power Center is designed to meet the needs for a safe, convenient power source at the contractor's specific working site. It virtually eliminates the unsafe and inefficient web of cable runs and extension cords that are splayed over the work area, lying in water puddles and providing a tripping hazard with potential injury to employees. You can now run your drills, saws, HEPA air handlers, lights, etc. from a convenient, safe ground fault protected and circuit breaker power source.

Item No	Description	Unit
58015	6 Outlet/50 Amp Temporary Power Center	Each
58016	6" Pigtail Connector	Each

Extension Cords

Heavy-duty molded one-piece watertight construction. Three-plug, straight blade connector, round cord.

Item No	Description	Unit
CORD50	50' Cord	Each
CORD100	100' Cord	Each

Waterproof Flashlight

Waterproof, crush-resistant thermoplastic polymer case. Easy-grip ribbed case. Unbreakable Tuflexx® lens covers a faceted reflector. May not be exactly as shown. Operates on two D-cell batteries (not included).

Item No	Description	Unit
2618R	Waterproof Flashlight	Each
PC1300	D-Cell Battery	Each

Span-O-Lite

Meets OSHA specifications for outdoor use. Heavy-duty 12 gauge, 3 conductor 600V cord in OSHA orange. Positively grounded, quick-open plated metal lamp guards with molded PVC lamp holders. Flexible galvanized wire messenger and molded cap and connector.

Item No	Description	Unit
58020	50'	Each
58021	100'	Each
58022	Replacement Plastic Lamp Guards	Each

Span-O-Lite Specifications

Item No	Wire Ga./Cond.	Wire Type	Length	Lamps	125V Rating
58020	12/3	SPT	50'	5	15A
58021	12/3	SPT	100'	10	15A

Portable GFCIs

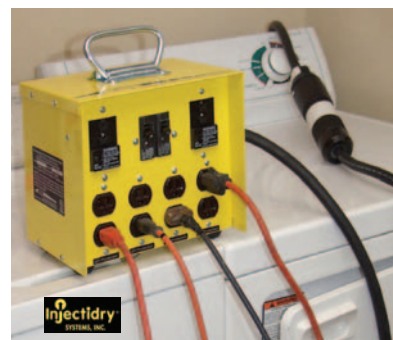

OSHA ground fault protection rules and regulations have been determined necessary and appropriate for employee safety and health. It is the employer's responsibility to provide either: (a) ground fault circuit interrupters on construction sites for receptacle outlets in use and not part of the permanent wiring of the building or structure; or (b) a scheduled and recorded assured equipment grounding conductor program on construction sites, covering all cord sets, receptacles which are not part of the permanent wiring of the building or structure, and equipment connected by cord and plug which are available for use or used by employees. Ground Fault Circuit Interrupters (GFCI) are a safe, affordable alternative to the cumbersome administrative requirements of an assured equipment grounding program.

Item No	Description	Unit
58011	4-Outlet GFCI Protected Power Station (15 Amp 12/3)	Each
58012	15 Amp, 12/3 Inline GFCI	Each

Mini Power Center

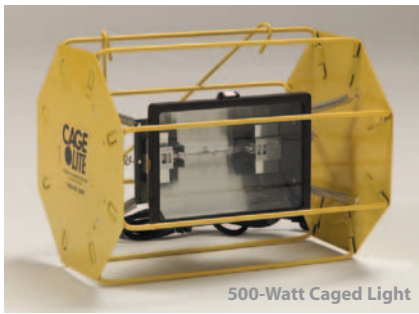

The compact Mini Power Center comes with a 25' cord with 50A 125/250V male twist, and has two separate 20A 125V GFCI protected circuits. Each circuit has its own breaker and GFCI, offering four outlets per circuit. Rated for indoor use only. Measures 10L x 8W x 9"H.

Item No	Description	Unit
99577	Mini Power Center	Each
Adapters		
6408M-PD	Dryer, 2', 4-Wire 30A w/ 50A Female Twist End	Each
6409M-PD	Range, 2', 4-Wire 50A w/ 50A Female Twist End	Each

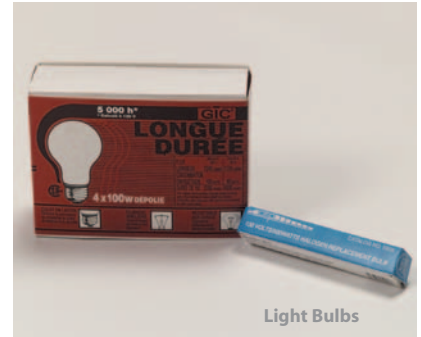

7' Tripod Quartz Light

500-Watt Caged Light

Outdoor Quartz Light

Light Bulbs

WobbleLight

7' Tripod Quartz Light

The 7' Tripod consists of dual 500-watt lights on a stand. The stainless steel light unit assembles in just five minutes. Comes with two 500-watt light bulbs. Bulbs are caged for added protection.

Item No	Description	Unit
58034	7' Tripod	Each
58038	7' Tripod Replacement Lens	Each

Outdoor Quartz Light

Increase safety and security with this 500-watt outdoor quartz light. Padded handle for easy portability. Lamp is caged for added protection.

Item No	Description	Unit
58030	Outdoor Light	Each

Light Bulbs

100-watt bulbs, four per package.

Item No	Description	Unit
L100W-4	Light Bulbs, 4/Pack	4/Pack

500-Watt Caged Light

Lightweight but heavy-gauge T6 aluminum frame construction. The light fixture is suspended with springs for maximum protection against impact. Yellow powder coated frame.

Item No	Description	Unit
58035	Caged Light	Each

WobbleLight

The self-righting work light that bounces back from abuse. The unique design features a counter-weighted bottom that instantly rights itself when knocked over. The 36"-tall light has a polycarbonate dome and an internal ventilation system that keeps the exterior cool. Includes a power outlet for the attachment of power tools or another WobbleLight.

Item No	Description	Unit
WL500H	500W Halogen	Each
WL175MH	175W Metal Halide	Each
WL250MH	250W Metal Halide	Each
WL400MH	400W Metal Halide	Each
