

3M™ Chemical Sorbents

3M Chemical Sorbents are powerful enough to handle acids, bases, coolants and most other hazardous fluids, but are also able to absorb petroleum- and aqueous-based liquids. They work quickly and are chemically inert, and they are more convenient to use and easier to retrieve than granular sorbents. The versatile **Folded Sorbent** is a four-in-one product and can be used as a boom, pillow, pad, or roll.

3M™ Maintenance Sorbents

3M Maintenance Sorbents, designed for nonaggressive liquids, are dust-free and contain no abrasive granules that can damage expensive equipment. Ideal for cleaning up small spills or wiping oily tools. The versatile **Folded Sorbent** is a four-in-one product and can be used as a boom, pillow, pad, or roll. The rugged **Production Pad** can be placed directly on machinery. Coated **Rug** prevents liquid from reaching the surface below it.

3M™ Chemroll and Chemical Folded Sorbent Spill Kits

Combines the power of 3M's Chemical Sorbents with the versatility of folded sorbents, providing a highly flexible emergency response capability. 3M Chemical Sorbents are powerful enough to handle acids, bases, coolants and most other hazardous fluids, but are also able to absorb petroleum- and aqueous-based liquids. Folded sorbents can be deployed as pads, pillows, booms or rolls, all dispensed from the same box. **Chemroll Kit** is extremely compact and has a 5-gallon capacity. It includes three rolls of folded chemical sorbent protected by clear shrink wrap. Each roll measures 5" x 26' (19" x 26' unfolded), is perforated every 16", and dispenses from the center. Kit also includes one temporary disposal bag. The larger **Chemical Folded Sorbent Spill Kit** has a 31-gallon capacity. It includes two rolls of folded chemical sorbents (each roll is 5" x 50' or 19" x 50' unfolded), 30 chemical sorbent pads (17 x 19") and 30 temporary disposal bags, all stored in a yellow 20-gallon drum with a lid and a plastic closure ring.
